

Cheshire West & Chester Council

Children's Social Care vision

1

Enable Practice

providing trauma informed and evidence based practice working with children and families to achieve positive outcomes. Enabling continual practice review and improvement through reflection to ensure that our approaches to working with children and families are consistent, trauma informed, and flexible to risk and need.

2

Empower People

through our learning culture; enabling our workforce to provide an outstanding service to children and families through; learning and development, reflection, progression, workforce wellbeing, recruitment and retention.

3

Deliver Progress

seeking to ensure that we develop innovative practice, embedding and developing Our Way of Working as an established practice model within Children's Social Care, responding to feedback from our children and families, and exploring how we can adapt and adopt national best practice. Having a key role within regional work.
